Tried and True Varieties

The five famous Tulips pictured on this page constitute our selection of tried and true varieties for 1942. The greater experience that we acquire in the bulb business, the more we realize that the tried and true favorites are the most satisfactory and are the varieties that are in greatest demand. The reason for this is obvious. Tried and true varieties always render greatest satisfaction.

Fall Sowing of Annual Flower Seeds

The practice of sowing annual flower seeds in the fall is becoming recognized to a greater degree than ever for its practicality. This practice merely conforms with Nature's practice and all varieties of flowers that self-sow naturally do better if sown late in the fall, anytime after November 15th.

Certain varieties require low temperatures to increase their germination and they will be found in the following list:

Annual Canterbury Bells
Centaurea cyanus (Cornflower)

Annual Larkspur
Morning Glories
Portulaca

Cosmos
Annual Dianthus

Sweet Peas, while not self-sown naturally, are advisedly better if sown in the fall for the reason that by virtue of their being in the soil they will develop deep root systems which is the prime requisite for a successful crop of Sweet Peas.

Consult our general catalog for varieties and prices of these annuals.

MAX SCHLING SPECIALTIES

PESTEX

A remarkable preparation that will positively repel all forms of moles, field mice and other rodents that are destructive to bulbs. 60c per lb.; 10 lbs., \$4.50, postpaid. 1 lb. sufficient for treatment of 200 bulbs. Absolutely harmless to plant life.

SCHLING'S FAMOUS ROSE COLLECTION

For best results always plant dormant Roses in the fall. Famous collection of 6 varieties for \$5.00.

Paper-White NARCISSI

For constant joy throughout the winter in the home. Our stock is unsurpassed.

MAJESTIC SPLENDOR PANSY PLANTS

It is as important to set out Pansy seedlings in the fall as it is to plant Roses in the fall. Strong fall-planted seedlings provide splendid bloom in the spring.

Veltheimia

Known as Cape Lilies. Provide a beautiful and most interesting house plant from bulbs.

IRIS, Wedgewood

Grown outdoors for splendid cut flowers and mass effect.

AMARYLLIS

Schling's famous Sequoia strain. A lasting bulbous plant that should be in every home as it is deserving of the greatest popularity.

With Apologies to None

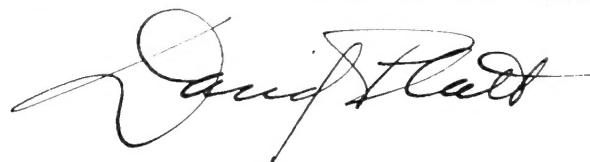

AS we enter into the third bulb season since the invasion of Holland cut off 90 per cent of our normal Tulip bulb supply, we survey the scene with pardonable pride and a great deal of satisfaction.

We take pride in the fact that we have pioneered in the promotion of American-grown bulb stock from the beginning of the European conflict, and satisfaction from the fact that our clientele has been highly pleased with the results obtained from our American and English-grown bulbs which, in not a few instances, were purchased with considerable doubt and trepidation.

We might say that we have always had as much faith in our American-grown stock as we do have in the ability of our people to rid the world of tyranny and oppression and to restore the joy of living and beauties of Nature to all mankind.

Since the founding of our country, the beauty of our natural flora has been enhanced by copious plantings of spring-flowering bulbs. Their presence in the garden is required for maintenance of "morale on the home front" and their beauty is intertwined with the American tradition.

A garden full of flowers in wartime? By all means. Make them your prophecy of peace.

Reserve the Most Treasured Corner of Your Garden for Some of Max Schling's Bulbs

We, Max Schling Seedsmen, Inc., give no warranty, expressed or implied, as to the quality, productiveness or purity in regard to variety of any of our seeds and bulbs, and we will not in any way be responsible for the crop. All of our seeds and bulbs are sold under these conditions and if not acceptable to the buyer, goods should be returned within five days after receipt of merchandise.

We are in no way bound to supply any merchandise which we offer and all stocks are sold subject to crop conditions, acts of war or acts of God. We reserve the right to change prices without notice and also reserve the right to withhold from sale any merchandise which we have offered subject to the above conditions. Ceiling prices prevail on all fertilizers, insecticides and various agricultural tools and implements. See page 19 for free postage information.

PESTEX—The Mole Repellent

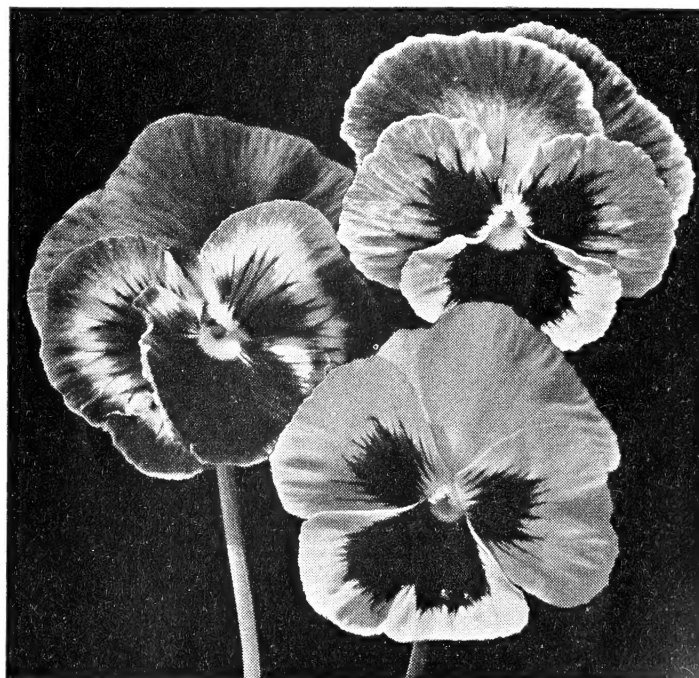

This great discovery has proven amazingly successful in repelling all destructive and bulb-loving rodents such as moles, field mice, squirrels, chipmunks, etc.

Dust your bulbs thoroughly before planting. One pound is sufficient to treat 100 tulip bulbs or more and leave enough over to mix in the soil in order to make your bulb beds absolutely "pest-proof." This product is non-poisonous and absolutely harmless to bulbs, roots and foliage. Price: 60c per lb.; \$4.50 per 10 lbs., postpaid.

If you like gorgeous Pansies— plant SCHLING'S MAJESTIC SPLENDOR PANSY PLANTS

Countless testimonials to the beauty and practicability of fall planted Pansy plants have been received by us since we introduced this most satisfactory method of Pansy planting.

Fall planted Pansy plants establish themselves better and insure the earliest and longest blooming season the following year. For full information on Pansy plants, see page 19.

American and English Grown Darwin Tulips

The outstanding feature of American-grown Tulips is that they are earlier flowering than the Dutch or English. Because of this early flowering, the blooms last considerably longer in the garden as they bloom before the late hot May sun appears. English Tulips have an interesting feature in the fact that the bud opens all at once so that the flower attains its full size immediately upon opening. The color of English Tulips is deeply intense. It is our truthful opinion that both the American and English Tulips "beat the Dutch." All top size bulbs.

Hardy Perennials to Plant with Tulips and Daffodils

Phlox Divaricata

Note: The following listing of plants consists of extra early blooming perennials that lend charm to all bulb plantings. Bulb beds may be bordered with Polemonium Blue Pearl, Mertensia Virginica, Phlox Divaricata Laphami and Myosotis Palustris Semperflorens. When bulbs are planted irregularly or informally, the groups may be broken up with plantings of Doronicum, the Dwarf Bleeding Heart, and Mertensia.

All of these plants are April and May flowering. They are as much a part of the spring garden as are the bulbs.

Doronicum

Lovely, erect, rich yellow Daisies; the flowers resembling hothouse Gerbera.

Caucasicum. Deep golden yellow. 3 for \$1.75; \$5.00 per doz.

Clusi. Light yellow. 3 for \$1.75; \$5.00 per doz.

Dicentra Eximia

Dwarf everblooming Bleeding Heart. 3 for \$1.25; \$3.50 per doz.

Spectabilis. The old-fashioned Bleeding Heart. Strong, 3-year-old roots, 75c each; 7.50 per doz.

Mertensia Virginica

The lovely Virginian Cowslip or Bluebell that can be used as an edging for Tulip bulbs or for planting between Tulips. They are exquisite planted by themselves in a shaded location although they thrive equally as well in full sun. Dormant roots, \$2.50 per doz.; \$18.00 per 100.

Myosotis Palustris

Myosotis Palustris

Semperflorens. Hardy Forget-me-not. A true, hardy, blue Forget-me-not. Strong plants, \$3.75 per doz.; \$26.00 per 100.

Phlox Divaricata

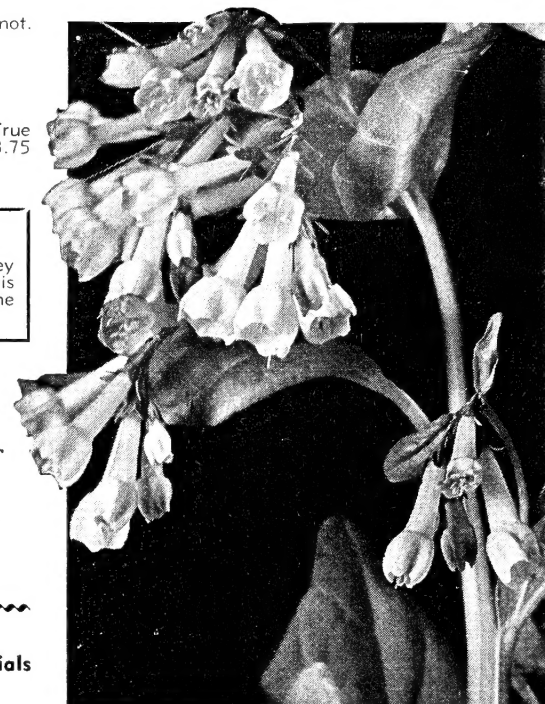

Laphami. A beautiful low growing early May-flowering perennial. True clear blue. Used for the same purpose as Mertensia Virginica. \$3.75 per doz.; \$26.00 per 100.

Polemonium, Blue Pearl

Polemonium, Blue Pearl

Lovely clear sky-blue flowers blooming in April and May. They thrive equally well in sun or shade. An outstanding feature of this lovely plant is the ornamental value of its foliage throughout the entire summer. 3 for \$1.75, \$5.00 per doz.

Paper-White and Soleil d'Or Narcissi for indoor growing are offered on page 15. Our famous Oregon Trail Narcissi for naturalizing illustrated and offered on page 23.

English Iris

Dutch Iris

An outstanding garden subject that has been neglected mainly because their all-around satisfaction has been little known. For garden effects they may be planted in clumps of six or more bulbs and for cut flowers, planting in rows 5 to 6 inches apart gives splendid results.

They are unsurpassed for greenhouse forcing and in the home in sunny windows. Early flowers can be procured by planting in cold frames. Regular outdoor blooming period June 1 to 15.

Blue Horizon. Violet and sky-blue combination.
***Imperator.** Brilliant and lovely blue. Orange lip.

Jacob De Wit. Rich, deep midnight-blue.

Leonardo da Vinci. Wings light lavender; standards gold. A lovely combination.

***Poggenbeek.** Early flowering dark blue.

***White Excelsior.** Pure, glistening white; yellow lip.

***Yellow Queen.** Rich golden yellow throughout.

Mixed.

(*) denotes varieties most preferred for forcing.

Iris, Golden Wonder

A May-flowering, pure golden yellow Spanish Iris. Distinctly a novelty of the highest order. \$1.50 per doz.; \$11.00 per 100.

Iris Reticulata

These bulbs, if planted in the home in an ordinary flower pot early in the fall, will bloom for Christmas. This is a miniature form of Dutch Iris that is also invaluable for outdoor planting, particularly in the rock garden. The flowers are delightfully fragrant. \$2.00 per doz.; \$15.00 per 100.

Schling's Multiple Flowering Iris (Iris Ochroleuca)

The Spike Iris. Perfect orchid-shaped Iris borne on spikes similar to gladioli. Invaluable for all garden purposes. Offered in 4 colors: white, blue, yellow and lavender. \$3.50 per doz.; \$26.00 per 100.

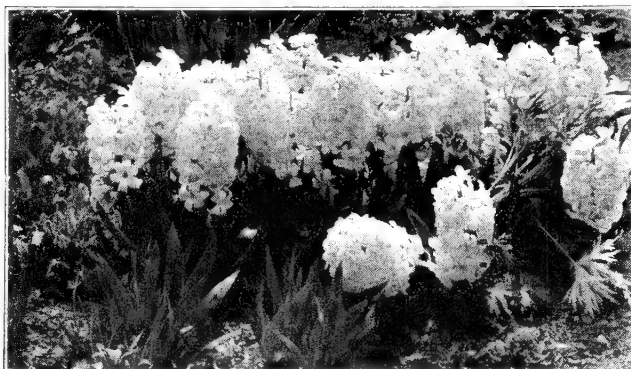

HYACINTHS

We feel that our listing of Hyacinths will be welcomed by all flower and garden lovers after last year's absence from our catalog. There is nothing that can substitute the beauty and fragrance of an indoor or outdoor Hyacinth planting. These bulbs are not plentiful; in fact, we can offer these only "subject to prior sale" and respectfully request when orders are placed that we be given the privilege of color substitution. We offer the following colors: Light blue, dark blue, white, light pink, dark pink, red, yellow and mixed.

Strong Bedding Size	\$3.50 per doz.;	\$27.50 per 100
Heavy Bedding Size	4.50 per doz.;	35.00 per 100

Lilium Regale

Lilium Candidum

Commercial as well as amateur growers are hailing the remarkable results obtained from American-grown Lilies. While there are still a few of the popular types that are unavailable, nevertheless we offer with pride as fine a selection of these ever-popular flowers as could be desired by any garden lover. Our stock of American-grown *Lilium Speciosum Rubrum* is as fine as any we have ever imported.

**Lilium Regale*. The most important garden Lily by virtue of the fact that it is completely satisfactory in every section of the country. They are prolific bloomers. Flowers are beautiful and impressive, and the plants improve from year to year. Color of the bloom is white with canary-yellow throat; reverse of flower often showing pink.
 Strong flowering bulbs, 4 to 6 blooms per bulb. Recommended for mass planting. 3 for \$1.00; \$3.75 per doz.; \$28.50 per 100.
 Giant flowering bulbs, 6 to 8 blooms per bulb. 3 for \$1.25; \$4.50 per doz.; \$34.00 per 100.

 Jumbo Exhibition bulbs, 20 to 25 blooms per bulb. 3 for \$2.60; \$9.00 per doz.; \$70.00 per 100.

Madonna Lilies

(*Lilium Candidum*)

Plant September 1st to November 1st.

Realizing the importance of these beautiful, chaste, white Lilies and the genuine affection with which they are regarded by all garden lovers, we have made every effort to procure clean, disease-free bulbs from American-grown sources. Our stock is perfectly hardy, being mountain grown and the results obtained from our bulbs for the past two years have been outstanding. Blooming period June.

Jumbo Green Mountain Strain. (Limited.) \$1.00 each; \$11.00 per doz.

Green Mountain Strain. (Our regular stock of this fine strain.) 3 for \$2.35; \$8.00 per doz.; \$60.00 per 100.

Blue Mountain Strain. (Hardy Pennsylvania-grown stock.) 3 for \$1.85; \$6.50 per doz.; \$47.50 per 100.

North Star Strain. Excellent for mass planting. \$4.00 per doz.; \$30.00 per 100.

Madonna Lilies for Naturalizing

We offer a splendid stock of bulbs, most of them flowering size, which we advocate for mass plantings and for those who have the patience to wait another year before having strong, flowering spikes. These bulbs have been offered by us for several years with great satisfaction. \$3.00 per doz.; \$22.00 per 100.

Cultural Notes on Lilies

All Lilies prefer a bright, well-drained location, although the degree of brightness is not as important as drainage. Planting depth is most important. All of the Lilies offered on this page, with the exception of Madonna Lilies, are known as stem-rooting Lilies and should therefore be planted to a depth of at least 8 inches for the large bulbs and 6 inches for the smaller bulbs.

In the case of jumbo *Rubrum* and *Regale*, a depth of 10 to 12 inches is satisfactory. But it is important to know that they should be at least 8 inches from the crown of the bulb to the soil surface.

Madonna Lilies should be planted approximately 3 to 4 inches deep.

All quick-acting fertilizers should be avoided as well as the practice of using manure when planting the bulbs. A top dressing of any good commercial fertilizer applied in early spring and just before flowering is most widely recommended, and where liquid manure can be obtained its use is also recommended twice or three times a season. Any of the good water soluble fertilizers are a good substitute for liquid manure.

An Outstanding Rare Variety for the Connoisseur

T. A. Havemeyer. A cross of *Henryi* and *Sulphureum*. Received the Royal Horticultural Award of Merit in 1937. General form and size like *Lilium Auratum*. Color all over a rich nankeen-yellow. Blooms August 1st. \$5.00 each.

Lilies for Greenhouse Forcing

The outstanding development of American growers has been the *Lilium Creole* which emanates from the South, and *Lilium Giganteum*, *Croft Strain*, which are grown in the northwest. These Lilies have been developed and the growing has been supervised by the U. S. Department of Agriculture and are acclaimed the finest Easter Lilies ever offered to the American public.

Lilium Harrisii, the famous Bermuda Lily, is still as good as ever.

Lilium Croft Strain. 9 inch circumference. \$1.50 each; \$16.50 per doz.

Schling's Famous PANSY PLANTS

We are offering again, for fall planting, our sensational Majestic Splendor strain in strong, well-developed plants. These plants, from seeds sown this summer, have been especially grown and hardened. They may be set out in beds this fall, and thus have the advantage of spring-planted Pansy plants in that they are well developed with a strong root system by next spring and receive no check from transplanting at the time that they are intended to bloom.

We are certain that the satisfaction derived from a trial planting of these splendid plants will convert all Pansy enthusiasts to fall planting of these cheerful garden requisites.

We recommend that in the region of New York and farther north, protection be given them by either hilling the soil up to within an inch of the top of the plant, or else providing a protective mulch, such as salt hay or leaves.

Collection No. 1. 25 plants each in the following colors: Deep golden yellow, pure white, solid blue, and wine shades.

Collection No. 2. 25 plants each in the following colors: Yellow, cornflower-blue, bronze, and royal purple.

Collection No. 3. 25 plants each in the following colors: Yellow, violet and white, pure white, and solid blue.

Price on the above collections: \$4.50 for each collection of 100 plants.

Separate colors: 100 plants of each color, \$4.25 per 100; \$38.00 per 1000.

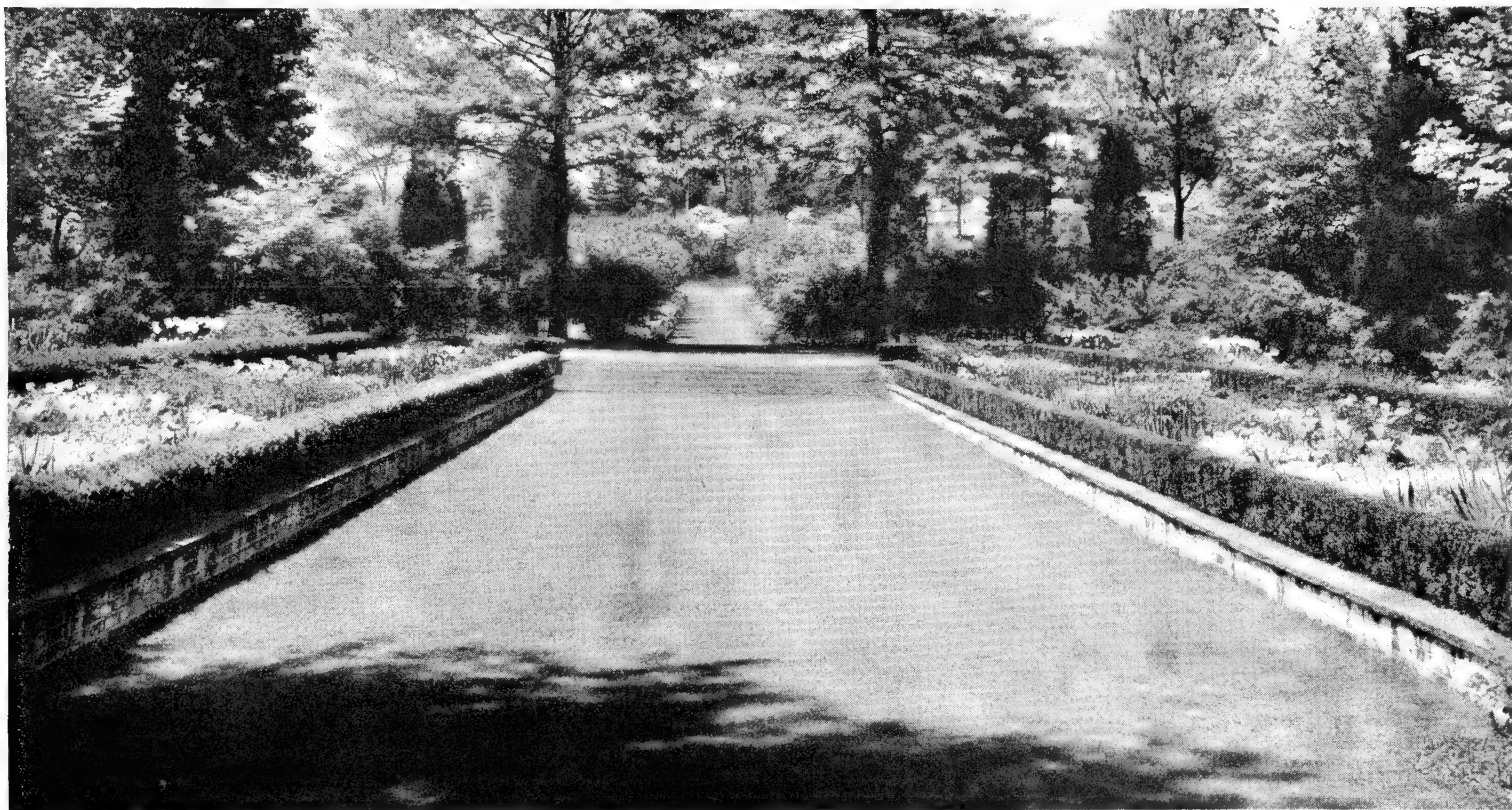

Schling's Majestic Splendor Pansies Mixed. \$3.50 per 100; \$27.50 per 1000.

Pansy and Viola plants shipped **prepaid** east of the Mississippi River.

Fall Sown Lawns are Best

Fall sowing of grass seed insures an established lawn for next season. These are the lawns that usually remain green through the hot and dry summer due to the fact that their root system has had a chance to develop through the cool days of autumn and early spring.

Schling's Maxima Grass Seed Mixtures

A grass seed mixture may be offered under any brand name. However, regardless of the name, the basis of all good grass seed mixtures must necessarily be the same. The important feature of a good mixture is that it contains heavy, plump seeds from selected grass stocks that have been grown for the distinct purpose of seed production. Careful blending plays its part in the compounding of a high class grass seed mixture. We have prided ourselves upon the super-quality of our grass seed mixtures which have established a reputation in the past 25 years.

Schling's Maxima Special Lawn Mixture. This mixture is especially designed for all ordinary lawn purposes. Weighing 32 pounds per bushel, its quality is sufficiently high to challenge the foremost brand mixtures offered by any seed house. Lb., 80c; 2 lbs., \$1.50; 5 lbs., \$3.50; 10 lbs., \$6.50; 25 lbs., \$16.00; 100 lbs., \$60.00.

Schling's Maxima Shady Nook Mixture. Years of successful usage have proved to us that our formula for this mixture is correct. This mixture will produce a rich, velvety greensward even in fairly dense shade. Lb., 90c; 2 lbs., \$1.75; 5 lbs., \$4.00; 10 lbs., \$7.50; 25 lbs., \$17.50; 100 lbs., \$65.00.

Schling's Bulb Fiber

Especially prepared bulb fiber that has been improved by the addition of various essential minerals for the successful growing of bulbous flowers. This material enables one to plant bulbs in decorative bowls without drainage, thereby enhancing the beauty of the entire arrangement. It is treated to prevent stagnation and putrefaction and never gives off an offensive odor. Such bulbs as Amaryllis, Roman Hyacinths, Paper-White Narcissi, Freesias, Calla Lilies, in fact, all bulbs that can be grown in the home thrive exceedingly well in this preparation. 25c per quart; 75c for 4 quarts; \$1.35 per peck.

Bulbs are Delivered Free in Second Postal Zone Only

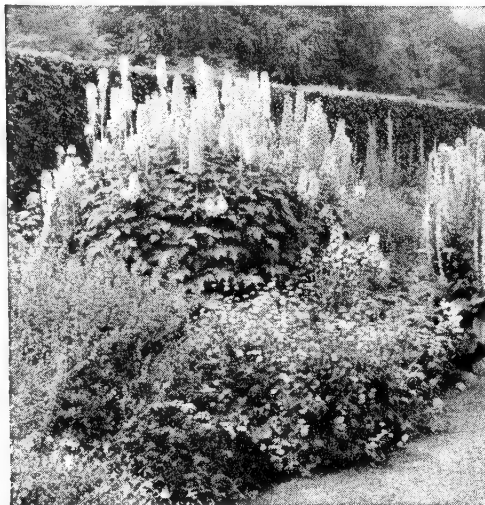

All bulbs offered in this catalog, with the exception of fleshy rooted kinds such as Iris, Peonies, etc., are postpaid within the limits of the second postal zone of New York City only. When placing orders from outside this zone it will be wise to add a reasonable amount of postage in order to forestall minimum express charge of 35c. Any remittance in excess of postal charges will be promptly refunded.

Perennial Plants

All plants are sent express collect unless transportation remittance accompanies order.

All Perennial Plants: 3 for \$1.35; \$3.75 per doz.; \$26.00 per 100, unless otherwise noted.

There are so many satisfactory perennials in existence today that in order to list all of them we would be forced to issue a separate catalog. We have, therefore, selected approximately 100 or more varieties which, in our estimation, are the most satisfactory for your garden. In this selection we are laying particular emphasis upon those that are best planted in the fall. The varieties described more fully are newer introductions of proved merit.

Plant Roses This Fall

The importance of planting dormant Roses in the fall is so great that it is difficult not to become too insistent in stressing the advantages of fall planting. Spring planted Roses never compare with stock that is planted in the fall. Many famous plantsmen have often expressed the fact that Roses should not be sold in the spring at all. The principal reason for the advantage of fall planting is the establishment of a strong root system so that after the winter rest period the plants start their growth without check. We are offering a selected list of proven varieties.

Schling's Selected Peonies

It is a known fact that the only time to plant Peonies for really good results the first year is in the autumn. It is advisable to cover the top eye of these strong roots no more than two inches. Protection is rarely necessary, and, if used, should consist only of such covering as salt-hay or leaves.

AMERICAN GROWN BULBS

For American Gardens

Since 1940 this has been our slogan, for when foreign sources of supply were cut off it was feared by many people that there would be no more Tulips for American gardens.

We undertook to dispel these fears almost immediately, for in the fall of 1940 we exerted every means at our disposal to acquaint the gardening public with the all-around excellence of American-grown Tulip bulbs. We did this without trepidation, for our experience prior to the war with American-grown Tulips, had proven them in a great many respects superior to imported stock.

While it is true that our selection of varieties is limited, we have nevertheless provided thousands of these splendid bulbs for the past two seasons with remarkably good results so that last year we were prompted to adopt another slogan "WITH APOLOGIES TO NONE."

Plantings of the last importations of Tulips are beginning to run out inasmuch as this will be their fourth year. Do not hesitate to place your order in full confidence that American-grown bulbs will give you greater satisfaction than any ever planted.

Try our famous APPRECIATION BORDER COLLECTION.

BULBS FOR HOME GROWING

The advantages and beauty of bulbs grown in the home during the long winter season have but recently been recommended.

In the past many flower lovers were content to grow Paper-White Narcissi and an occasional pot of Lily-of-the-Valley, never daring to attempt some of the lesser known but more alluring bulbous plants.

We offer for your consideration a list of bulbs that can be planted with every assurance of complete success in the home.

Amaryllis, Sequoia Hybrids

Calla Lilies, White

Calla Lilies, Yellow

Freesias

For bright rooms and temperature not over 60 degrees.

French White Roman

Hycinths

Lachenalia

Veltheimia

Fancy Leaf Caladiums

The above list can be listed as almost fool proof, but we, of course, suggest that any of the other items appearing in our Indoor Bulb Section should be attempted, for with a modicum of care and understanding very satisfactory results can be obtained.

Schling's Famous OREGON TRAIL MIXTURE

of Naturalized Narcissi Bordered With Grape Hyacinths

"A Long Time Investment in Beauty"

Last year our color illustration of the famous Oregon Trail Mixture displayed a beautiful planting of them under Birch trees; in a wide pastoral setting.

The accompanying illustration demonstrates the diversity of this beautiful mixture on smaller grounds. We could suggest a score or more settings for Narcissi to be naturalized, but it must suffice us to state that they can be planted anywhere, in large or small quantities, and at all times they portray the freshest "breath of spring."

Our mixture is made up of a special blend of Oregon-grown Narcissi and Daffodils, containing in its composition all of the airy short-cup and short-trumpet varieties as well as a liberal proportion of the majestic large trumpet varieties.

Price: \$4.95 per 100; \$46.50 per 1000; 2000 for \$85.00.

GRAPE HYACINTHS

Plant these liberally. 75c per doz.; \$5.50 per 100.
